Rodents

Outside

Address: 361 9th Street, Midrand

Date	Area	Treatment Done:
Oct 2018	Building 1 – Acacia	<ul style="list-style-type: none">All boxes were checked for activity / We have noticed a slight increase in activity / We will monitor this building, as this is the second month we noticed activity
	Building 2 – Baobab	<ul style="list-style-type: none">There was a decrease in rodent activity detected, but this area will still have to be monitored closely
	Building 3 – Coral	<ul style="list-style-type: none">All boxes were checked / In some areas we found a decrease in activity, but have noticed some activity in the far end of the building
	Building 4 – Flamethorn	<ul style="list-style-type: none">All boxes were checked / There was an increase in activity, but is still manageable at this stage.
	Building 5 – Dombeya	<ul style="list-style-type: none">All boxes were checked and some were re-baited / There is still a definite increase in activity in this area. We have baited the boxes with extra bait and will monitor this area closely
	Building 6 – Gardenia	<ul style="list-style-type: none">All boxes were checked / We did noticed a decrease in activity at this building.
	Building 7 – Ebony	<ul style="list-style-type: none">All boxes were checked / We have noticed an increase in activity, but is still manageable at this stage.
	Refuse area	<ul style="list-style-type: none">All boxes were checked and re-baitedIncreased rodent activity detected in the main refuse area only.

Area	Findings
Refuse area	In general we found an increase of activity in this area. This area will be monitored closely with each visit, as the rodents are attracted to the refuse.
Buildings 1 – 7	<ul style="list-style-type: none">In general there was a decrease in rodent activity in the complex. However, we did notice a large amount of ants marching up to the units at each building. The tenants / owners are welcome to contact us if they need us to come through and treat their units

General findings	Just a reminder, with regards the rodent boxes that need to be re-installed and replaced, please can you advise the cleaning staff not to move or damage the boxes, as this will cause an increase of rodent activity.
