Area	Findings
Refuse area	We found that 2 out of the 5 boxes at the refuse area were missing. These will have to be replaced.
Buildings 1 – 7	We found 3 boxes that were tampered with. These boxes have been replaced at no cost.
General findings	It is our conclusion that due to an increase of residents in the veld next to your property and due to the rain, that you have an increased activity of rodents in the vicinity of buildings 2, 3 and 5
